WORK EXPERIENCE

Frontend developer | June 2022 - Current

UDEV WEB

- Designed and coded user interfaces from Figma designs into production-ready pages
- Built modern web applications with Next.js and React.
- Integrated front-end features with REST APIs and handled data display, forms, and UI states
- Styled responsive, pixel-perfect layouts with Sass and Tailwind CSS
- Used Git for version control — branching, commits, and code reviews with the team
- Improved existing pages for speed, responsiveness, and clearer visual hierarchy
- Ensured consistent UI across browsers and devices through testing and polish

Frontend developer | June 2020 - June 2022

MERKLE

- Redesigned and refined existing pages for better UX, consistency, and performance
- Collaborated with designers and backend developers to ship features on deadline
- Created responsive, pixel-perfect layouts with Sass and Tailwind CSS

Frontend developer | October 2018 - June 2020

Pulse Digital

- Styled pixel-perfect, mobile-first layouts with Sass and Tailwind CSS
- Improved existing websites with full UI refreshes — better responsiveness, clearer hierarchy, and stronger performance
- Redesigned pages for better UX, performance, and visual consistency

Frontend developer | June 2018 - October 2018

Mytech Agency

Frontend developer | January 2018 - June 2018 - INTERNSHIP

ENDEV

Frontend developer | October 2017 - January 2018 - INTERNSHIP

SWEDGI
